

Summary Care Record Update

08 Nov 2023 14:05 | Surgery: Dr Lata Motwani (Clinical Practitioner Access Role)

History: Telephone encounter (9N31.) seen on 6 ~~sep~~ for inguinal hernia- has been ~~refred~~ for scan- noted ~~webice~~ request vetted- states becoming painful & had to 2 ~~week~~ off work discussed should have been ~~reffred~~ to general surgeon rather than book scan as scan will not change management if hernia is symptomatic  
Plan: referral done
